DETAILED ACTION

1. This action is responsive to Applicant's Appeal Brief filed on August 5, 2008 and the BPAI Decision mailed October 28, 2011.
2. Claims 69-92 have been examined and are allowed (renumbered 1-24).

Examiner's Statement of Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

As Applicants pointed out in the Remarks, the prior art of record do not disclose and/or fairly suggest at least claimed limitations recited in such manners in independent claim 69 *"...displaying a node in a graphical program; receiving first user input invoking display of a plurality of functions for the node; displaying the plurality of functions for the node in response to the first user input; receiving second user input selecting a function from the plurality of functions; determining graphical program code based on the second user input, wherein the determined graphical program code comprises a graphical representation of an implementation of the selected function, and wherein the determined graphical program code is executable to provide functionality in accordance with the selected function; associating the determined graphical program code with the node, wherein, when the node in the graphical program executes, the determined graphical program code executes to provide the functionality in accordance with the selected function"* and similarly recited in such manners in other independent claims 77, 85, and 89.

These claimed limitations are not present in the prior art of record and would not have been obvious, thus all pending claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
